(219) 844-3980

For Immediate Release
October 1, 2010

Effective October 1, 2010, Halstab is announcing a price adjustment for liquid and powder mixed metal stabilizers. This increase is the direct result of raw material cost that have been rising over the past several months. The magnitude of the price changes will be variable and will be dependent on the raw materials used to formulate each product.

We are doing our best to aggressively contain raw material cost to provide our customers with the best value in the market.
